PHILADELPHIA, NOV. 20, 1929.

TRADE CONDITIONS: During the inactive season our general price list is only issued at irregular intervals, but the trade is urged to communicate with us at any time that latest values are wanted, or for other information.

SEALED BAGS: Our Domestic Red Clover will be packed in sealed bags, with the P. S. C. Certified tag attached, showing the exact State or States of origin.

RED CLOVER: Present indications are for a large crop of very fine quality Red Clover throughout the United States and it is possible this year to offer Red Clover grown in sections producing the hardest seed. Quaker Brand Domestic Red Clover consists of a blend of the best Red Clover available, selected from the best producing sections and graded and recleaned to highest purity. To those who are interested in Red Clover grown in individual states, we are quoting seed grown in several of the more important producing sections.

The spread between price of Domestic and Adaptable is now so small that it is expected the demand for Adaptable will be much restricted, especially in view of the fact that price of Domestic seed is now the lowest in many years.

TIMOTHY: It is now generally realized that the quantity of Timothy seed available at the end of the Fall season just closed is much smaller than was earlier anticipated. The market has advanced about \$1.00 per 100 pounds during the past two weeks.

ALSYKE: A large crop of very fine quality has been harvested and prices are fully \$6.00 per bu. below those which prevailed last Spring. A good demand is anticipated.

ALFALFA: The Alfalfa seed crop will be short this year; official estimates predict that the total available quantity of seed will only be about 25% higher than the very short crop of last year. In view of the fact that last year's available supply was augmented by a carryover which does not exist this year we anticipate a strong market for Alfalfa.

Prices quoted below are today's values f.o.b. Philadelphia. Samples sent promptly upon request. Bags not returnable. Upon request we can supply our seeds packed in 1 bu. bags made of towelling material of first quality. Each bag will make two single towels or one double towel. Seed so packed is invoiced at an advance of 50 cts. per 100 lbs., net weight, bags free.

ALFALFA

{ 60 LBS. PER BU.
16-20 LBS. PER ACRE }

THE PHILADELPHIA SEED COMPANY AS AUTHORIZED VERIFIED ORIGIN DEALERS IN ALFALFA OFFER EXCLUSIVELY BELOW ALFALFA UNDER THE FOLLOWING AUTHORIZATION:

The records of origin for Alfalfa seed sold by us are kept in accordance with a plan approved by the U. S. Department of Agriculture and are maintained under the supervision of that Department. Under this system

and by special arrangement with that Department we are authorized to issue verified-origin seed certificates for such seed, the locality of production of which has been verified by a Federal seed inspector.

Quotations on Adaptable Red Clover are for No. European grown seed recleaned over various processes to remove impurities peculiar to foreign grown seeds. Imported Clover seed may be sold at much lower prices in original heavy burlap sacks. It has always been our policy, however, to oppose the distribution to the farmer of foreign grown Clover seed from original imported packages account of the danger of sowing noxious weed seeds.

BULK BIRD SEEDS

See column 5.

TO GRAIN SHIPPERS

We are interested at all times in special varieties of seed grains which give promise of greater yields and bigger profits for the farmers of the Middle Atlantic States. You are invited to communicate with us regarding any such special varieties which may come to your attention. Also our complete seed cleaning plant in Philadelphia is at your service for the re-cleaning of any home grown seeds. Farmers should be urged to sow only clean seed.
